

# ARCTIC CAT ATV Service Plan

Vehicle information		Service carried out (tick)								
Model:	<b>Maintenance schedule to be used</b>									
VIN: -----	(A)   (B)   (C)									
Milage:										
Operating hours:										
Last service:	<b>CAT CARE WARRANTY</b>									
Registration no.:	( YES ) / ( NO )									
Subassembly		Service point			Handover inspection		Necessary work		carried out	
General	Preparation	Mileage and operating hours			First service	Basic service	Extended service:	OK		
		Maintenance plan allocation (A,B,C)			x	x	x	x		
		Customer workshop order			x	x	x			
		Readout defect code memory /check tachometer error messages			x	x	x	x		
Engine	Air filter	Filter: cleanliness, condition			x	x	x	x		
		Replace filter					x			
		Housing: Check for liquid or dirt residue			x	x	x	x		
		Drain pipes: check for free throughflow					x			
	Valves	Visual check, check camshaft for wear				x	x			
		Check and adjust valve play			x	x	x			
		Piston / cylinder	Compression					x		
			Motor oil	Replace oil and filter			x	x	x	
	Check oil cooler and supply lines for tight fit and damage			x	x	x	x			
	Exhaust system			Check elbow, silencer for seal tightness			x	x	x	x
		Visual check for cleanliness and damage			x	x	x	x		
		Check heat protection for completeness and condition			x	x	x	x		
Check bolted connections for tight fit, retighten			x	x	x	x				
Fuel unit	Aeration / bleed hoses	Check for condition and free throughflow			x	x	x	x		
		Throttle cable	Smooth movement			x	x	x	x	
			Condition			x	x	x	x	
			Lubrication (only use lubricants on PTFE basis)			x	x	x	x	
	Cooling system		Check throttle limit and readjust			x	x	x	x	
		Idle speed	Check and adjust			x	x	x	x	
			Check cooler / cooling fins for dirt and damage			x	x	x	x	
			Check cooler and coolant lines for seal tightness			x	x	x	x	
	Piping / hoses		Check coolant lines for tight fit and damage			x	x	x	x	
		Fuel unit	Coolant level			x	x	x	x	
			Antifreeze			x		x		
			Replace coolant					x		
Power transmission	CVT		Check petrol / diesel lines for damage and tight fit			x	x	x	x	
		Check aeration / venting lines for free throughflow			x	x	x	x		
		Transmission	Check tank venting			x	x	x	x	
			Check tank and tank cap for damage and condition			x	x	x	x	
	burettor / injection system		Check and adjust			x	x	x	x	
			Drain carburettor					x		
		Check choke (automatic/manual) and readjust			x	x	x	x		
		Check belts and belt drive for wear and condition			x	x	x	x		
	Brake unit	Service brake (hydraulic)	Check belt housings for dirt or liquid residues			x	x	x	x	
			Replace belts and wear parts					x		
			Replace CVT spacer drive pulley (only L7e-B1 homologated units)					x		
			Check centrifugal clutch for function (test run)			x	x	x	x	
Parking brake (cable)		Check shaft sealing ring for seal tightness					x			
		Check and clean housing aeration and venting			x	x	x	x		
		Check aeration and venting lines and expansion container			x	x	x	x		
		Transmission oil: Check fill level and condition (front and rear axle)			x	x	x	x		
Linings / discs	Replace transmission oil					x				
	Check and readjust differential lock actuation			x	x	x	x			
	Check four-wheel-drive actuation			x	x	x	x			
	Check and adjust shift linkage			x	x	x	x			
Supply lines	Check service brake unit (hydraulic) for clearance and free movement			x	x	x	x			
	Check brake lines, brake pump and brake caliper for leakage or damage			x	x	x	x			
	Check brake fluid level and quality of fluid			x	x	x	x			
	Replace brake fluid					x				

# ARCTIC CAT ATV Service Plan

Vehicle information		Service carried out (tick)					
Model:	<b>Maintenance schedule to be used</b>						
VIN: -----	(A)   (B)   (C)						
Milage:							
Operating hours:							
Last service:	<b>CAT CARE WARRANTY</b>						
Registration no.:	( YES ) / ( NO )						
Subassembly		Service point			Handover inspection	Necessary work	carried out
Underbody	Tyres	Conditions (cracks, deformity and durability of tyre compound), including inside tyre wall			x x x x		
		Profile depth			x x x x		
		Tyre pressure			x x x x		
	Wheel rims	Condition (cracks, deformation)			x x x x		
		Check wheel nut tightening torque			x x x x		
		Check for correct and tight fit			x x x x		
	Rubber bushes and sleeves	Check for damage			x x x x		
		Check plastic bearings for wear			x x x x		
		Check axle journals for damage, deformation			x x x x		
	Shock absorbers	Check piston rod for damage (scratches, scoring)			x x x x		
		Check absorbers for function and leakage			x x x x		
		Check springs for damage			x x x x		
		Check shock absorber bearings for wear			x x x x		
	Steering equipment	Check for wear and play			x x x x		
		Check steering for clearance and smooth running			x x x x		
		Check steering head bearing for wear (play)			x x x x		
		Check track rods, track rod heads, steering gear for wear and damage			x x x x		
		Check bolted connections for tight fit, retighten			x x x x		
Check steering link / wheel for damage and tight fit			x x x x				
Electric system	Frames	Check frame parts and welded seams for damage			x x x x		
	Tracking	Check and adjust			x x x x		
	Battery	Check charge, check battery contacts			x x x x		
	Fuses	Check fuses			x x x x		
		Check spare fuses, re-stock			x x x x		
	Lighting	Check sidelights, dipped beam, main beam, indicators, hazard warners, rear light, brake light, registration lighting, reflectors			x x x x		
Adjust main beam / dipped beam			x x x x				
Horn		Check function and volume			x x x x		
Wiring harness	Check conditions (spark, colouration, deposits, contacts)			x x x x			
	Replace spark plugs			x x x x			
	Heating plugs	Check cold start behaviour, check heating plugs if necessary			x x x x		
	Replace heating plugs			x x x x			
Displays and controls	Check plug connections and service (contact spray)			x x x x			
	Check for correct routing and fixing (sufficient distance to hot or movable parts)			x x x x			
	Tachometer	Check display for function and damage			x x x x		
	Indicator lamps	Check function			x x x x		
	Operating elements	Check switches, levers, buttons for ease of movement and function			x x x x		
	Mirrors	Check mirrors and fixings for damage and tight fit			x x x x		
Grips	Check for damage, wear and tight fit			x x x x			
	Check heating for function (if fitted)			x x x x			
	Anti-theft device	Check function, clean and lubricate if necessary			x x x x		
Gearlever	Check correct setting and tight fit			x x x x			
Pull starter	Check function, return spring and cable			x x x x			
General	Checks and documentation	Reset defect code memory / error messages			x x x x		
	Test run (motor power, driving behaviour, brakes, noises, gear changing, ...)			x x x x			
	Clean vehicle			x x x x			
	Make entries in service manual			x x x x			
	Copy service plan to customer (condition for Cat Care guarantee)			x x x x			
	Copy service plan to Arctic Cat GmbH (condition for Cat Care guarantee)			x x x x
